

From Wind Turbines to Wind Molds, PSTS knows it all.

PSTS was awarded contract by its Spanish counterpart, Kaleido Logistics, to handle wind mould shipment that arrived as breakbulk cargo at Chennai Port from Shanghai, China. These were total of 10 packages and needed special attention all through from receiving under the hook till delivery at site. PSTS safely delivered all packages at ACCIONA India factory site. Acciona India has four wind farms in Karnataka India, having total capacity of 164 MW. PSTS has considerable experience in handling wind turbine blades and have successfully shipped more than 300 blades on door-to-port basis.
