|-------------------|-----------------------------|
| Year | : Sep, 2016 |
| Client | : Marcons / CombiLift |
| Project Name | : Stator Sea Transportation |
| Place of Origin | : Ennore Port, India |
| Port of Discharge | : Mumbai Port, India |
| Description | : Stevedoring Operation |

PSTS was awarded Stevedoring work to get necessary approvals and loading of 409 MT stator on foreign flag vessel for coastal movement. Citing cabotage regulations relaxed by the Shipping Ministry for project cargo, PSTS was the first to take advantage of the new policy and got the documentation completed within the time frame of few hours as advised by the vessel owners. The 800 ton spreader was used for the operation and Stator was safely stowed on the deck.
